Subject: SW Marine Excavations

Omer (USEPA), Omo and Scott (DTSC).

I left you today a voicemail to confirm last week's communication that the soil removal as approved under the Removal Action Workplan (RAW) at SW Marine is scheduled to start next week, with equipment mobilization on Monday Oct 13 and excavation of soil starting on Tuesday Oct 14. We expect confirmation sampling to start on Friday, Oct 17. We also conducted some additional sampling as requested by USEPA, and the results are in a report currently under review by the Port of LA, and that should be sent to you .

The excavation, sampling, and soil hauling are scheduled to last a few weeks.

Paul Parmentier, CHG
